ABOUT US

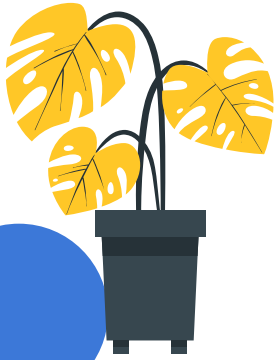

The Legal Clinic is the first digitalize law firm specializing in Startups, SMES, and Entrepreneurship in MENA region.

What do we do for Startups and the Ecosystem?

Based in Cairo, The Legal Clinic provides a broad range of legal services that have been tailored to function as a helping hand to startups and entrepreneurs. From the moment of the establishment to the stabilized presence of these growing companies, The Legal Clinic has facilitated the process of exchange of services to its clients by creating a one-of-a-kind online portal, where clients can enjoy access to lawyers who respond to all their legal inquiries from the luxury of their home. This portal includes a full-fledged online service that is aimed at best serving startup companies with their corporate legal needs using a diversified scope of work.

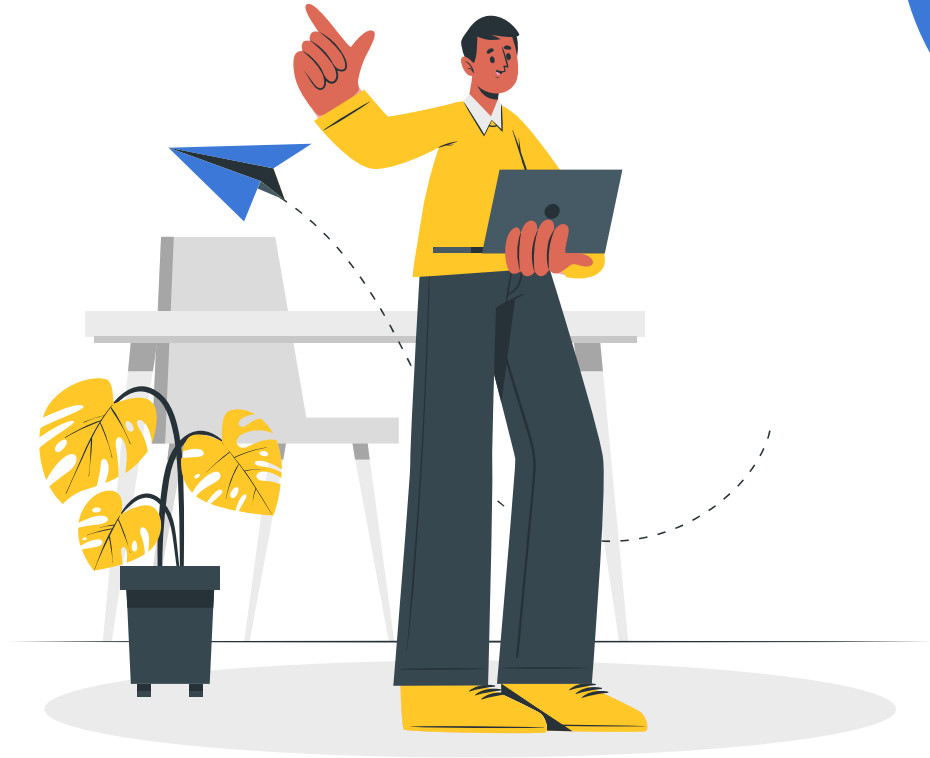

Following 5 years of success, The Legal Clinic understands that startups are all about reducing costs as they create viable products and services, which is why The Legal Clinic continues to thrive among younger generations where startups and entrepreneurs choose to stray away from their legal concerns. For those who still enjoy face-to-face interactions, The Legal Clinic is located at the Greek Campus Tahrir.

Our Goal

To increase legal awareness among startups and entrepreneurs and prevent any legal constraints from reoccurring in a way that best serves the whole ecosystem in the Egyptian market.

01

Our Mission

To standardize legal services and resources for startups and entrepreneurs, enabling them to build and create leading companies by thoroughly taking into consideration quality, efficiency, and cost.

02

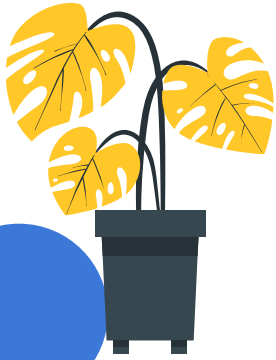

Why The Legal Clinic?

The Legal Clinic is set to launch a one-of-a-kind online portal that provides clients with easy access to all of their legal corporate needs and inquiries.

The Legal Clinic has access to a wealth of materials such as MOUs, Employment contracts, and NDAs that are free of charge at initial contact.

The Legal Clinic also provides legal workshops and mentoring sessions to startups and entrepreneurs to increase their legal awareness. More than 400 workshops have been successfully employed at different locations and governorates in Egypt to date.

Legal program

- Adding to the pool of services provided by The Legal Clinic, a new program «365 Legal Program» was launched as an effort to cover all legal requirements needed by startups on an annual basis in a unified package. These legal services include legal awareness workshops, company structuring, drafting, and reviewing any kind of contracts, legal consultation, and much more.
- 365 Legal Program is mainly an attempt to provide clients with high-quality services that take into account a pocket-friendly approach to help startups in succeeding during the early stages of their launch.
- Which is why, creating this program has intertwined a robust and highly effective legal infrastructure for startups to further expand their businesses without any legal obstacles now and in the future.

The Legal Clinic Fees Policy

The Legal Clinic has a full transparent policy when it comes to invoicing. The client receives an itemized bill that details all work undertaken and any expenses incurred.

- There are no hidden costs. All estimated fees are pre-approved by the client prior to any initiation of work and engagement, while also keeping the client updated with all issues related to billing.

Additionally, clients are informed if lawyers from other jurisdictions are needed, while also incurring the least fees plausible for the successful closure of the transaction.

Kindly note that The Legal Clinic does not charge commissions or extra fees when lawyers from other jurisdictions are used, they are billed separately.
